jp.haynes@utexas.edu

+1 (405) 201-5801

Education	<p>University of Texas at Austin, Austin, TX Master of Science (M.S.) in Computer Science Coursework: Planning, Search, and Reasoning Under Uncertainty Cumulative GPA: 4.00/4.00</p> <p>Southern New Hampshire University, Manchester, NH Bachelor of Science (B.S.) with Honors Major in Computer Science, Minor in Applied Mathematics Cumulative GPA: 4.00/4.00</p>	<p>August 2024 - Present Graduation: May 2026</p> <p>January 2021 - June 2024 Graduation: June 2024</p>
Conference Proceedings	<p>J. P. Haynes, M. J. Bhalerao, W. T. Honeycutt, J. K. Allen, and F. Mistree. <i>Predictive Modeling for Public Policy Design: The Impact of Artificial Lights at Night (ALAN) on Bird Strikes</i>. ASME International Design Engineering Technical Conferences & Computers and Information in Engineering Conference, DETC2024-143780, Washington, D.C., August 2024.</p>	
Journal Articles	<p>J. P. Haynes, M. J. Bhalerao, W. T. Honeycutt, J. K. Allen, and F. Mistree. <i>Predicting Bird Strike Occurrences through a Model-Based Cyber-Physical-Social System Design</i>. [Under Review]. Submitted to ASME Journal of Computing and Information Science in Engineering (JCISE).</p>	
Invited Talks	<p><i>Predictive Modeling for Public Policy Design: The Impact of Artificial Lights at Night (ALAN) on Bird Strikes</i>. 42nd ASME/AIAA Regional Symposium, Oral Roberts University, Tulsa, OK, April 2024.</p> <p><i>Predicting Bird Strike Occurrences through a Model-Based Cyber-Physical-Social System Design</i>. Webinar given to the SRL@OU Conversations Series, April 2024.</p>	
Oral Presentations	<p><i>Predictive Modeling for Public Policy Design: The Impact of Artificial Lights at Night (ALAN) on Bird Strikes</i>. [Co-presented with Mayank Bhalerao]. ASME Computers and Information in Engineering Conference (CIE), Washington, D.C., August 2024.</p> <p><i>Adaptive Manufacturing Systems: Leveraging Predictive Modeling and Cyber-Physical-Social Systems for Real-Time Adaptation</i>. [Poster created for NSF/ASME Design Essay Competition]. ASME Computers and Information in Engineering Conference (CIE), Washington, D.C., August 2024.</p>	
Experience	<p>Systems Realization Laboratory at OU, Norman, OK Remote Research Intern advised by Dr. Janet K. Allen and Dr. Farrokh Mistree at the University of Oklahoma</p> <ul style="list-style-type: none">• Collaborated in a team of researchers as lead author for the ALAN project, investigating the impact of artificial lights at night (ALAN) on bird strike occurrences.• Helped define the research problem by identifying knowledge gaps in the existing work, illustrating a method of predictive modeling informed by cyber-physical-social systems (CPSS).• Conducted exploratory data analysis (EDA) using GIS tools, integrating data including the FAA wildlife strike database, BirdCast migration forecasts, and light pollution rasters.• Developed a spatiotemporal predictive model using random forest regression with GIS data, achieving an R-squared value of 0.80.• Applied k-fold cross-validation and hyperparameter tuning to optimize model performance, achieving an average absolute error of 0.87 strikes.• Winner of the NSF/ASME student design essay contest for an essay on adaptive manufacturing systems using predictive modeling and cyber-physical-social systems (CPSS).• Authored 2 first-author publications (IDETC, JCISE) and presented at 4 technical sessions as part of my work in this lab. <p>Walmart, Yukon, OK Sales Associate</p> <ul style="list-style-type: none">• Balanced a customer-facing role throughout undergraduate studies, developing strong time management and leadership skills.	<p>August 2023-Present</p> <p>June 2020 - Present</p>

- Trained and mentored over 20 employees, enhancing team efficiency and communication.
- Managed merchandise presentation and facility maintenance, contributing to a 5.5% YoY sales increase in a \$100M/year facility.

Projects	Portfolio Website — jpthefish.com	December 2022 - Present
	Messaging platform where users collaborate and share design and research ideas	
	<ul style="list-style-type: none"> • Deployed a full-stack web application with daily traffic using React.js, Firebase, and SQL. • Created a chatroom with sign-in authentication, back-end security logic, and word filtering. • Designed and implemented a responsive UX design with careful attention to visual accessibility. 	
	Replication of 3D Scenes in OpenGL with Ronald Bishop	Spring 2024
	Course project, CS-330 Computational Graphics and Visualization	
	<ul style="list-style-type: none"> • Developed an interactive 3D graphics scene using OpenGL to replicate real-world 2D images into a navigable virtual environment. • Modularized the shaders for vertex and fragment processing, optimizing the rendering process and enhancing the realism of textures, lighting, and material properties. • Implemented a user interface with keyboard and mouse controls for navigating the scene, exploring orthographic and perspective views, and simulating camera movements. • Explored the applicability of graphics pipeline techniques to computer vision by simulating an example of object recognition and spatial analysis within a controlled 3D environment. 	
	Grazioso Salvare Analytics Dashboard with Dr. Sherri Maciosek	Spring 2023
	Course project, CS-340 Client/Server Development	
	<ul style="list-style-type: none"> • Developed an analytics dashboard for an Austin-based rescue-animal company using Python, MongoDB, and the Dash framework. • Implemented interactive data visualization components, including tables, charts, and geolocation maps, enabling stakeholders to filter and analyze animal shelter data by relevant criteria. 	
	NSF/ASME Student Design Essay Competition Award – \$1,500	June 2024
	Graduation with Honors and Distinction at SNHU (Summa Cum Laude)	May 2024
	Alpha Sigma Lambda	November 2023
Service and Organizations	<i>Member</i> , Association for Computing Machinery (ACM)	September 2024 - Present
	<i>Member</i> , American Society of Mechanical Engineers (ASME)	July 2024 - Present
	<i>Member</i> , National Society of Leadership and Success (NSLS)	March 2024 - Present
	<i>Volunteer Contributor</i> , Wikimedia Foundation	May 2020 - January 2022
Technical Skills	Languages: Python, SQL, R, Java, C/C++, MATLAB, JavaScript Data technology: PostgreSQL, MySQL, MongoDB, Firebase/Firestore Tools and frameworks: Git, AWS, Docker, OpenGL, React, Tableau	
Certifications	Google Advanced Data Analytics Certificate, Coursera Inc.	January 2024
	People and Business Leadership Certificate, Bellevue University	March 2021
	GED Mathematics Credit (top 1-8% of high school graduates)	December 2018
Languages and Other Skills	Intermediate Spanish (B1) and French (B2) Language Fluency Classical and Jazz Piano
