Profile

I am a junior year computer science student seeking an internship in front-end, back-end, or full-stack development. Through my combination of work, freelance, and academic experience, I have adhered to software development best practices and demonstrated skills in engineering, design, and business communication.

Education

Bachelor of Science in Computer Science, Southern New Hampshire University; Manchester, NH – degree anticipated before Spring 2024

- Cumulative GPA of 3.9/4.0

Projects

Development & Portfolio Website — [jpthefishdemo1.web.app](#) (Online & GitHub)

Engineered and deployed a full-stack web application using React.js featuring messaging functionality with secure authentication, responsive UX design, and visual accessibility.

Sorting Algorithm Visualization Tool (GitHub)

Created an interactive Python GUI that visually illustrates the sorting methods of heap sort, merge sort, quick sort, and bubble sort.

Business Website Templates with Responsive Design (GitHub)

Designed and engineered website templates for prospective businesses featuring modern aesthetics and visual design, fluid animation, and mobile-friendly layout and functionality.

Experience

Part-time / full-time associate, Walmart; Yukon, OK – June 2020–present
